

UNLOCK NEW CAPABILITIES WITH MANAGED MICROSOFT AZURE

Azure, Private Cloud, On-Premises Supported by AIS Network

PRIVATE CLOUD

AZURE

ONPREMISES

Combine the power of Azure with AISN's secure and compliant managed services and get a cloud solution that expands your IT capabilities for a more flexible, agile, and scalable environment.

Hybrid Capabilities: Optimize your workloads across customized hybrid solutions that span on-premises, private cloud, and Microsoft Azure.

Scalability With Availability: Leverage nearly infinite scalability, virtually unlimited capacity, blazing performance and extremely quick provision times while maintaining 99.95% uptime.

Easy to Move to Azure: We help you determine which workloads can take advantage of the full suite of services Azure provides and then we can migrate and support them for you.

Secure and Compliant: Azure helps keeps customer data secure through encrypted communications and meets or exceeds all major compliance regulations including data sovereignty requirements, HIPAA, PCI, and SOX.

AISN Managed Services: Whether you need cyber threat protection and other security services or compliant backup and disaster recovery, we have it. Ask us about our migration services.

Get the Microsoft expertise you need

24x7x365 US-based support

Free migration

Transition your VMs to Azure quickly and easily with our expert support services.

Relieve the burden and reduce the complexity of IT administration.

AISN's Managed Microsoft Azure offering is ideal for:

- Adding accessibility and reducing the maintenance costs of legacy apps
- Mission critical workloads requiring maximum uptime
- Preventing outages during peak demand periods such as holiday and promotional traffic spikes
- Removing the need to maintain a data center
- Providing low cost test/dev environment for new applications
- Storing data in specific geographic regions to meet data sovereignty regulations
- Eliminating large capital expenditures when doing system refreshes
- Lowering costs with flexible "pay for what you use" pricing

Why AISN?

- Virginia eGov: Contract VA-120416-AISN (hosting services), CAI Virginia IT Contingent Labor Contract Statement of Work (app development), Contract VA-120413-BPI (web apps maintenance/ operations)
- Certified Microsoft Partner and Tier 1 Microsoft Cloud Solution Provider
- Azure Government Cloud Reseller
- 24x7x365 customer support and monitoring
- Customized, secure hybrid solutions
- Geo-redundant data centers
- Multiple compliances (HIPAA, PCI, more)
